### **Switching from Swamp Cooler to Air Conditioning?**

Albuquerque Plumbing/Heating/Cooling

Josh Miller

505-903-8661

505-508-3808

<https://www.abqplumb.com/>

We took three quotes and chose Josh, because he genuinely cared about making our home comfortable. Included are ecobee thermostats and sensors <https://www.ecobee.com/en-us/> that solved our cold corners in the winter and hot spots in the summer.

### **Plumbing, A/C, Heating**

1 Call Mechanical

Joe Werbner

(505) 615-2134

[1callmechanical@gmail.com](mailto:1callmechanical@gmail.com)

Joe is an independent plumber I use all the time. I've used many over the years but Joe has been the best I've come across. He lives on the west side and has done work for other residents in the subdivision.

### **Granite and Tile Work**

Granite Connection

Salvadore

304-4823

Both of these firms were less expensive than others, their work was beyond excellent, and they finished on time without added days. Our entire project was started and finished in two weeks (except for me doing the repainting I am doing). The people where we bought our tile, appliances and hardware are okay, but these two firms are exceptional. Feel free to use our name to the neighbors, and to the contractors. We might even have people come to see their workmanship, but generous bribes of wine and spirits are welcomed LOL.
